Freeport-McMoRan contributes in many ways to the sustainability of the various communities, counties and states in which we operate. They rely heavily on the economic benefits directly and indirectly provided by our various operations in the form of wages and taxes we pay as well as the goods and services we purchase. This direct spending ripples through the economy, inducing additional economic benefits and contributing to more jobs and greater tax revenues.

The charts to the left explain how our Miami operations provides such a boost to the county and state economies.
