

Freeport-McMoRan Inc. CDP Participation Update

Freeport has participated in CDP's annual questionnaires related to GHG emissions and water for more than a decade, most recently receiving B ratings for both in 2024. Beginning with the 2025 reporting year, Freeport suspended participation in the CDP (formerly, the Carbon Disclosure Project) Corporate Questionnaire due to continuous platform changes and declining customer requests. Freeport remains committed to providing stakeholders with clear and transparent information regarding its climate, water and other sustainability initiatives through our Annual Report on Sustainability and other related disclosures. Previous CDP disclosures and annual performance data are available at [fcx.com](https://www.fcx.com).
